Broadwind Energy Overview

Paul Seppanen – President EMS

July 21, 2010 - Windiana

Industry Data and Forward-Looking Statements

Broadwind obtained the industry and market data used throughout this presentation from its own research, internal surveys and studies conducted by third parties, independent industry associations or general publications and other publicly available information. Independent industry publications and surveys generally state that they have obtained information from sources believed to be reliable, but do not guarantee the accuracy and completeness of such information. Forecasts are particularly likely to be inaccurate, especially over long periods of time. We are not aware of any misstatements in the industry data we have presented herein, but estimates involve risks and uncertainties and are subject to change based on various factors beyond Broadwind's control.

This presentation includes “forward-looking statements” within the meaning of the safe harbor provisions of the United States Private Securities Litigation Reform Act of 1995 – that is, statements related to future, not past, events. Forward-looking statements are based on current expectations and include any statement that does not directly relate to a current or historical fact. In this context, forward-looking statements often address our expected future business and financial performance, and often contain words such as “anticipate”, “believe”, “intend”, “expect”, “plan”, “will” or other similar words. These forward-looking statements involve certain risks and uncertainties that ultimately may not prove to be accurate and are subject to change based on various factors. Actual results and future events could differ materially from those anticipated in such statements. For further discussion of risks and uncertainties, individuals should refer to Broadwind's filings with the Securities and Exchange Commission. Broadwind undertakes no obligation and does not intend to update these forward-looking statements to reflect events or circumstances occurring after this presentation. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this presentation. All forward-looking statements are qualified in their entirety by this cautionary statement.

About Broadwind Energy

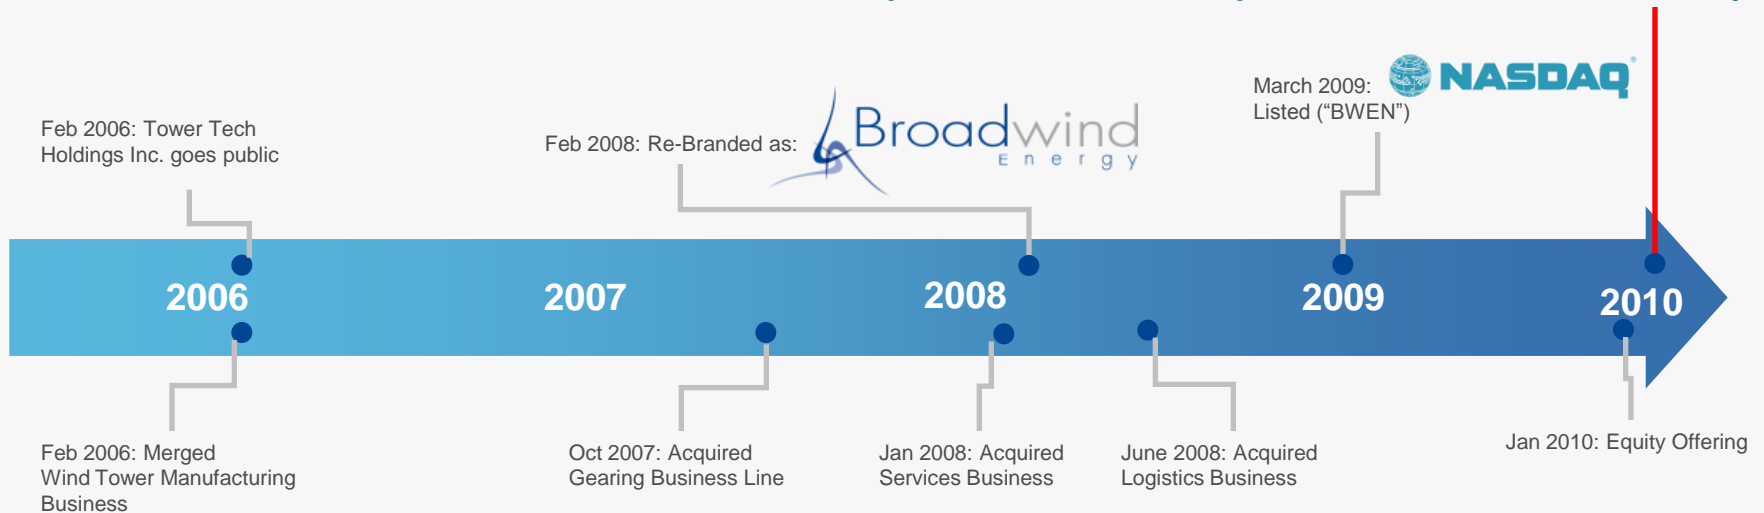

- Provider of wind energy products and services
- Trades on NASDAQ as BWEN
- Founded in 2003
- ~800 employees

History and Milestones

Today: Leading independent, horizontally integrated products and services provider to the U.S. wind industry

Founded: 2003

- A leading producer of new 2MW+ tower designs
- Third largest steel wind tower manufacturer in North America
- >1,000MW of annual capacity

Founded: 1924

- Leading North American precision gearing system manufacturer for the wind industry
- 4,000MW of annual capacity

Founded: 1998

- A leading independent services provider to the U.S. wind industry
- 100+ Technicians across the U.S.

Founded: 1982

- 60 specialized heavy-haul trailers
- >500MW of annual hauling capacity, scalable fleet

PRODUCTS

GEARING SYSTEMS

WIND TURBINE GEARING SYSTEMS

Largest U.S. based precision gearing manufacturer for the wind industry in North America

NICHE & INDUSTRIAL PRODUCTS

High-quality, large scale products for mining and oil field equipment and cranes

WIND TOWERS

WIND TURBINE TOWERS

A leading wind tower manufacturer in North America

SERVICES

TECHNICAL AND ENGINEERING SERVICES

TECHNICAL SERVICES

A leading independent provider of construction support and operations and maintenance services for the wind industry

PRECISION REPAIR & ENGINEERING SERVICES

Repair and refurbishing of complex wind components, including control systems, gearboxes and blades

LOGISTICS

LOGISTICS

Specialized transportation and logistics services to the wind industry

Tower Tech Systems/Badger Transport

- 3 lean state-of-the-art plants
- Precision welding capabilities
- 1,000+ MWs of capacity
- 60 heavy-haul trailers

Brad Foote Gear Works

- Manufactures gearing for inside the gearbox
- ISO 9001:2008 certified
- 4,000 MWs of capacity
- Serves wind, mining and oil & gas industries

Energy Maintenance Service (EMS)

- 100+ technicians
- Services Include:
 - O&M site staffing and 24/7 monitoring
 - Major correctives on blades, gearboxes and generators
 - Gearbox refurbishment with a 3 MW full load test stand
 - Field repair of blade damage and serial defect programs
 - Legacy KW turbine sourcing, refurbishment and installation
 - End of warranty (EoW) inspections, oil changes and more
